Entering Competitions

SIGN IN

The following changes to the signing-in procedures on competition days are effective immediately:

1. Register with the Professional and pay him the fee/s in cash. This will constitute a formal 'entry' commitment.
2. Prepare own score-card (master handicap list on the hall desk)
3. Enter scores using 'touch-screen' computer. The 'score-entry' screen can only be accessed after effecting 'sign-in' (which builds an entry list) but this can be a single, combined operation after playing.
4. Place score-card in box (including nil-returns)

Swipe-card payment and score-card printing is no longer available.

The 'Screen Names Index' will be active so that members without a functioning swipe card can gain access to enter their scores.

Some events, such as knockout competitions with no defined play date, will still require pre-payment using cash envelopes. The notices for each will make clear which method is to be used.

It is regretted that the unreliability of some of the operating features of the existing systems has made these changes necessary. The objective is to eliminate the frustrating problems experienced by members over recent years, and to improve accounting efficiency for payments.

The Professional welcomes this opportunity to be closely involved. As well as administering the entry system he will be able to oversee proceedings, imparting information and giving advice where needed. It is hoped that members will value this contribution as a service not available when using technology alone.
